

[Access Cabling and Communications](#) is a premier Telecommunications Contractor in the bay area with more than 15 years of experience serving San Francisco, San Jose, East Bay, and Sacramento California. With offices in San Mateo, San Jose, Livermore, Alameda and Sacramento we can service all of northern California. Some call us the best data cabling contractor in the bay area give us a call today and decide for yourself.

Our upgrade services? Many old and dated cabling standards do not support the new VOIP Voice systems and need to be replaced. Call us for a free site estimate and get all the old CAT3 or 10BaseT system out of your building and replace it with CAT5 or CAT6 for gigabit communication speed.

Electrical Services? That's right we are a fully licensed electrical contractor.

Cabling for a Voice or Data networks is only as good as the testing and labeling of the jacks and patch panels. If your cabling was done professionally then you have everything tested, documented and labeled correctly right?

Most small contractors don't take the time to do the job right. We pride ourselves in our outstanding workmanship in completing network cabling systems to our standards that exceed the industry.

This is our list of services we offer to Commercial and Small Business clients:
